

Environmental policy

The undersigned Andrea Rosa legal representative of the company Lanificio Subalpino srl, undertakes to prevent pollution, to guarantee the safeguarding and protection of the environment and to pursue the continuous improvement of the environmental performance of the organization by minimizing the risks related to the activities carried out and to the products / services provided.

In particular, the organization undertakes to:

- appoint a person responsible for the management of environmental aspects;
- comply with current legislation and any voluntary agreements regarding its significant environmental impacts;
- carry out a continuous control of the production process and monitor the related environmental aspects, in particular the consumption of water and energy and the production of waste and sewage;
- define objectives and adopt operational procedures and / or practices in order to reduce water and energy consumption;
- adopt procedures and/or operating practices aimed at minimizing the production of waste and effluents;
- adopt procedures for the prevention and management of environmental emergencies;
- provide company personnel with adequate training on relevant environmental aspects;
- adopt an improvement program.

The organization also undertakes to provide the necessary technical, economic and professional resources, so that the objectives of the environmental policy are fully achieved.

This Environmental Policy is disseminated at all levels and it is everyone's responsibility to actively collaborate, as far as they are concerned, to improve the management of environmental aspects.

The organization guarantees, through subsequent verification activities that this policy is understood and implemented and that the stated objectives are pursued.

Andrea Rosa, CEO
LANIFICIO SUBALPINO SRL
